

EANAB Quarterly Report

Q3 2021

Prepared by: June McClung, Environmental Noise Advisor, Dip IOA

Table of Contents

1. Aircraft noise	3
1.1 Noise complaints received	3
1.2 Runway use.....	3
1.3 Number of departures per SID	3
1.4 Complaints by type of enquiry	4
1.5 Complaints by area sorted by number of complainants	5
1.6 Complaints per SID	5
1.7 Number of flights per aircraft type.....	7
1.8 Number of complaints per aircraft type.....	7
2.0 Night noise.....	8
2.1 Night noise per hour per quarter	15
2.2 Total number of night flights	16
3.0 Insulation Scheme enquiries	16
4.0 Off-track aircraft.....	17
5.0 Maximum noise levels recorded per week.....	18
6.0 Noise commentary Q1/Q2/Q3	20

1. Aircraft noise

- Our Service Level Agreement (SLA) is to respond to noise complaints within eight days
- All percentages are reported to one decimal place
- Any negative figures or decrease in percentages are reported in **red**
- Relevant data tracker topic number

1.1 Noise complaints received

* The number of complainants per Quarter will not equal the sum of the complainants per month. If a complainant makes a complaint each month they will be counted as one complainant across the Quarter rather than as 3.

	Jul-21	Aug-21	Sep-21	Q3/2021 total	Q2/2021 total	% change Q3/2021 v Q2/2021	% change Q3/2021 v Q3/2020
Number of noise complaints	85	102	87	274	84	225.0%	33.2%
Number of Complainants	15	20	15	37	25	52.0%	-36.7%
Number of complaints answered within SLA	92.9%	94.1%	98.9%	95.2%	85.7%	11.1%	24.4%

1.2 Runway use

	Jul-21	Aug-21	Sep-21	Q3/2021 total	Q2/2021 total	% change Q3/2021 v Q2/2021	% change Q3/2021 v Q3/2020
Runway 06	2541	2542	1843	6926	2742	152.6%	84.2%
Runway 24	2021	2582	3891	8494	3570	137.9%	8.0%
Runway HEL	52	49	60	161	42	283.3%	111.8%

1.3 Number of departures per SID

Number of departures per SID								
SID	GOSAM-06	GOSAM-24	TLA6C	GRI3C	GRI4D	TLA6D	TUT1C	UNKNOWN
Departures	2272	2473	1393	469	305	798	0	93

1.4 Complaints by type of enquiry

Complaints per cause

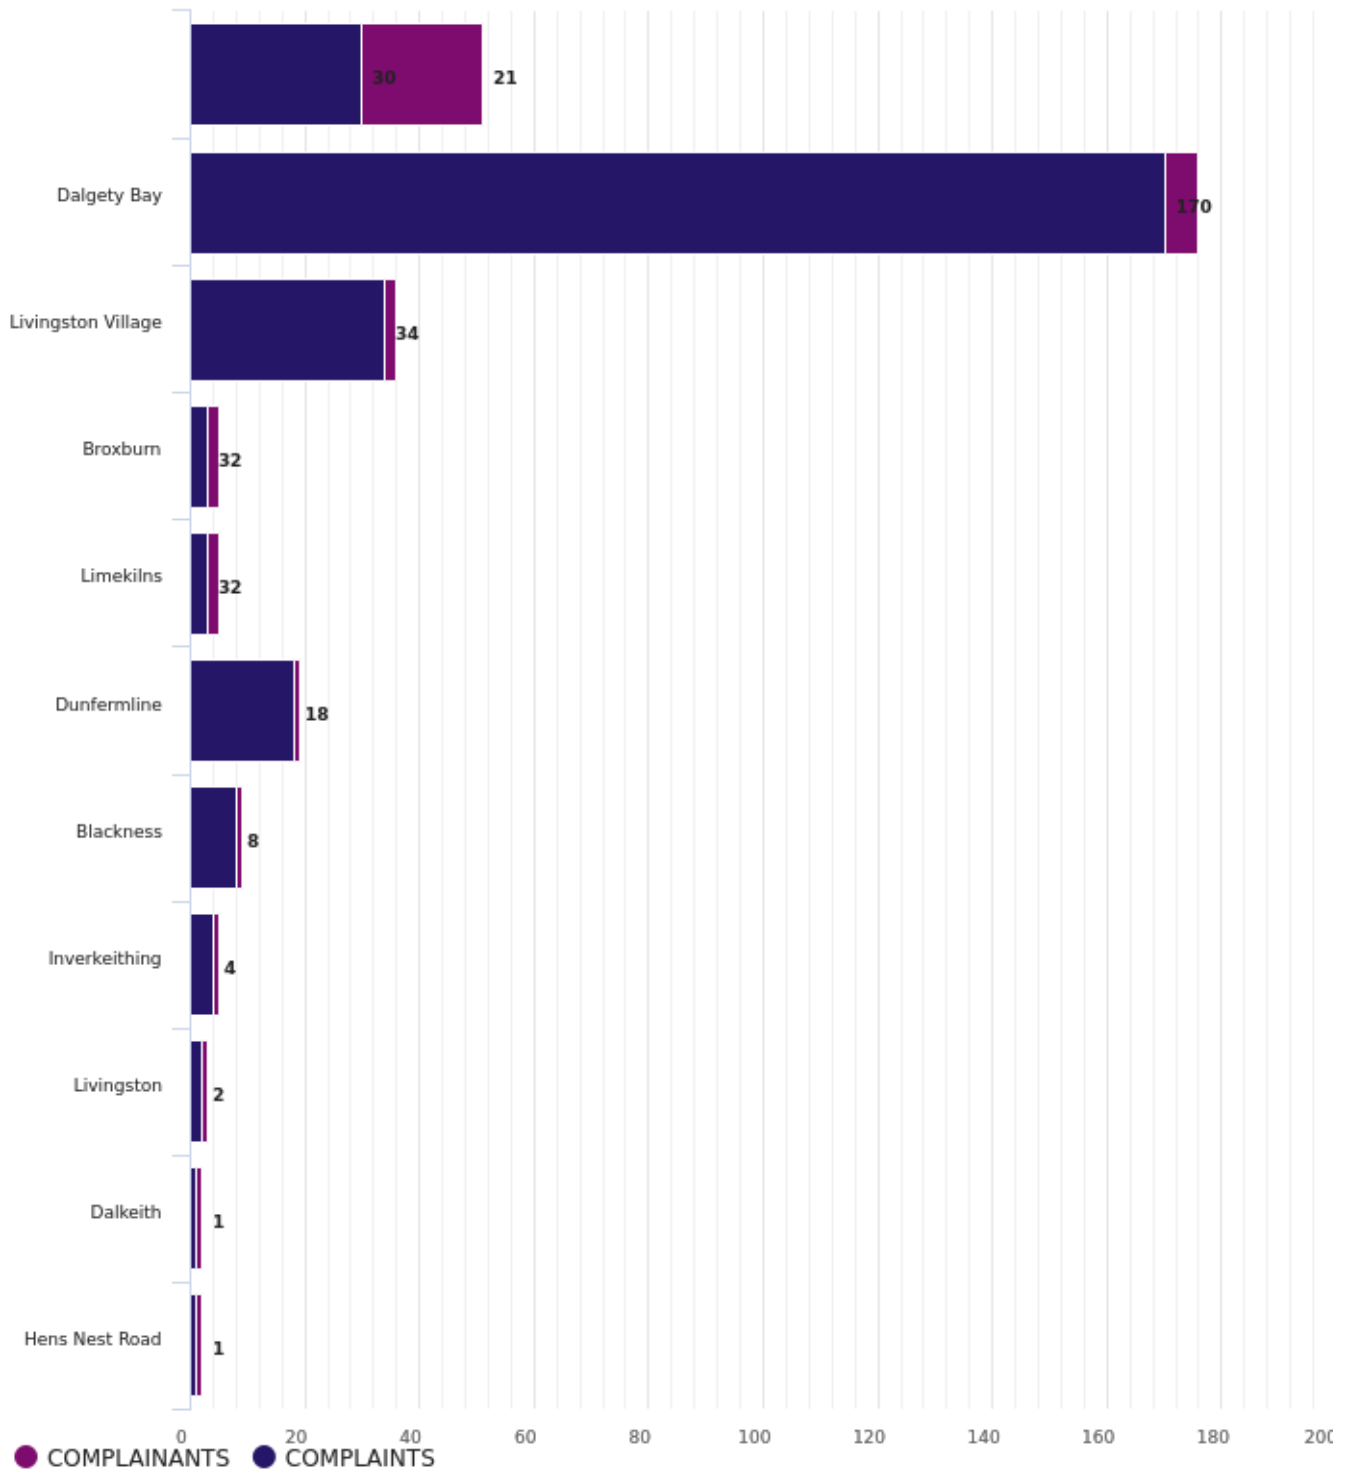

● COMPLAINTS

Definition of the above terms used.

Defined terms - As perceived by complainant not EDI defined	
Ground running	Complainant considers noise source to be engine testing operations or noise of aircraft on ground within the airport grounds.
Helicopter	Complainant considers noise source to be EDI related helicopter movements – generally not Edinburgh Airport movements
General/non specific	Complainant wishes to report a non-noise related complaint – still logged as it is received to noise line or noise email address.
Off track	Complainant considers the aircraft to be flying out with the SID or NPR
Low flying	Complainant considers noise source to be due to the altitude of aircraft being too low
Arriving aircraft noise	Daytime (06:00 – 23:30) noise level complaints for arrivals
Departing aircraft noise	Daytime (06:00 – 23:30) noise level complaints for departures
Daytime Noise Levels	Daytime (06:00 – 23:30) noise level complaints – arrivals and departures
Night flight noise	Night time (23:30 to 06:00) noise level complaints
ACP	Enquiries regarding noise levels relating to proposed new flight paths not yet flown
Military flight noise	Noise complaints regarding military aircraft not associated with Edinburgh Airport

1.5 Complaints by area sorted by number of complainants

Complaints per area

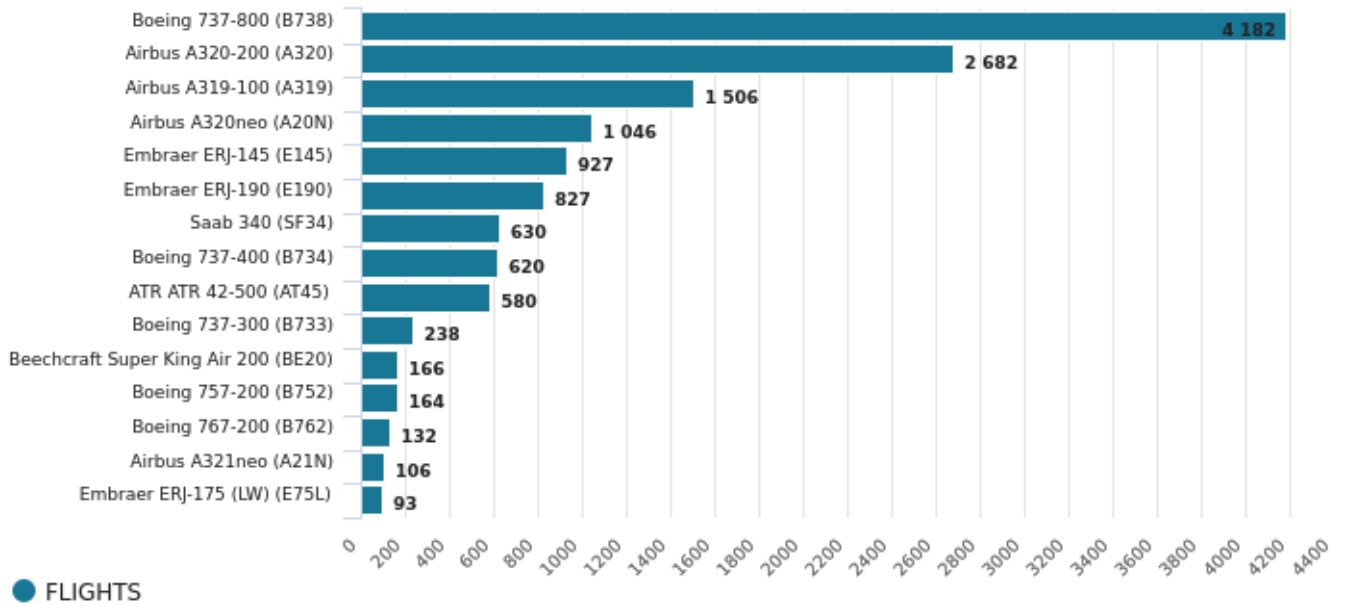

1.6 Complaints per SID

6.0 Noise commentary Q1/Q2/Q3

- From the start of the year 2021 and during the pandemic in general, noise complaints dramatically reduced however, we did we continue to receive complaints. The majority of those were from frequent complainers who are mentioned in each quarterly report.

When the period is looked at as a whole the number of complaints is 416, however the top 5 complainants were responsible for 325 or 78% of the complaints received during 2021

- During the summer months we saw an increase in complaints in relation to touring helicopter movements which were not related to helicopters arriving or departing from Edinburgh Airport

Although we have no control over these operations we do respond to the enquirer, providing them with information on the operation such as the call sign and the airfield it was flying to and from. We also as a courtesy provide information on where next to contact to attempt to resolve the issues they are experiencing.

- As the Aviation sector starts to recover and air traffic movements increase slowly towards pre pandemic levels I expect that noise enquiries will start to increase significantly, not only from regular or frequent complainers but also from other sources and for a variety of reasons such as:
 - Householders who have moved to new areas and new builds during the Pandemic not realising they live below a current flight path for EDI
 - Householders who are now working from home having previously worked in an office and were therefore not aware of daytime operations
 - Those newly suffering from ill health may now be more sensitive to noise and notice an increase without realising this is a return to normal operations
 - Householders who have become acclimatised to low back ground levels from all sources, road, rail, industrial noise, may find the addition of increasing noise levels from all sources including aviation as the straw that breaks the camels back, and complaints are likely
 - ACP has restarted and I would expect that, as during the last ACP programme, complaints and enquiries will increase significantly as the public start to think about noise, changing flight paths and how it may impact them and their properties personally
