

EANAB Quarterly Report

Q3 2019

Prepared by: June McClung, Environmental Noise Advisor, Dip IOA
Checked by: Louise McIntyre, Community Engagement Manager

Table of Contents

1. Aircraft noise	3
1.1 Noise complaints received	3
1.2 Runway use.....	3
1.3 Number of departures per SID	3
1.4 Complaints by type of enquiry	4
1.5 Complaints by area sorted by number of complainants	5
1.6 Complaints per SID	5
1.7 Number of flights per aircraft type.....	9
1.8 Number of complaints per aircraft type.....	10
2.0 Night noise.....	11
The table below shows the number of flights per hour per quarter during 23:00 – 07:00, based on WHO.	24
.....	24
Totals include all flight operations, including cargo, military, passenger, helicopter and general aviation	25
3.0 Insulation Scheme enquiries	25
4.0 Off-track aircraft.....	26
5.0 Maximum noise levels recorded per week.....	30
Fining levels	30
Day 06:00 – 23:30 - 94dB Lmax	30
Night 23:30 – 06:00 - 87dB Lmax.....	30
6.0 Noise commentary	31
7.0 Glossary	Error! Bookmark not defined.

1. Aircraft noise

- Our Service Level Agreement (SLA) is to respond to noise complaints within eight days
- All percentages are reported to one decimal place
- Any negative figures or decrease in percentages are reported in red
- Relevant data tracker topic number

1.1 Noise complaints received

	Jul-19	Aug-19	Sep-19	Q3/2019 total	Q2/2019 total	% change Q3/2019 v Q2/2019	% change Q3/2019 v Q3/2018
Number of noise complaints	282	304	150	736	735	0.13%	61%
Number of Complainants	41	50	46	106	101	4.9%	-72%
Number of complaints answered within SLA	99.6%	83.6%	93.3%	91.7%	97.4%	-5.8%	11.3%

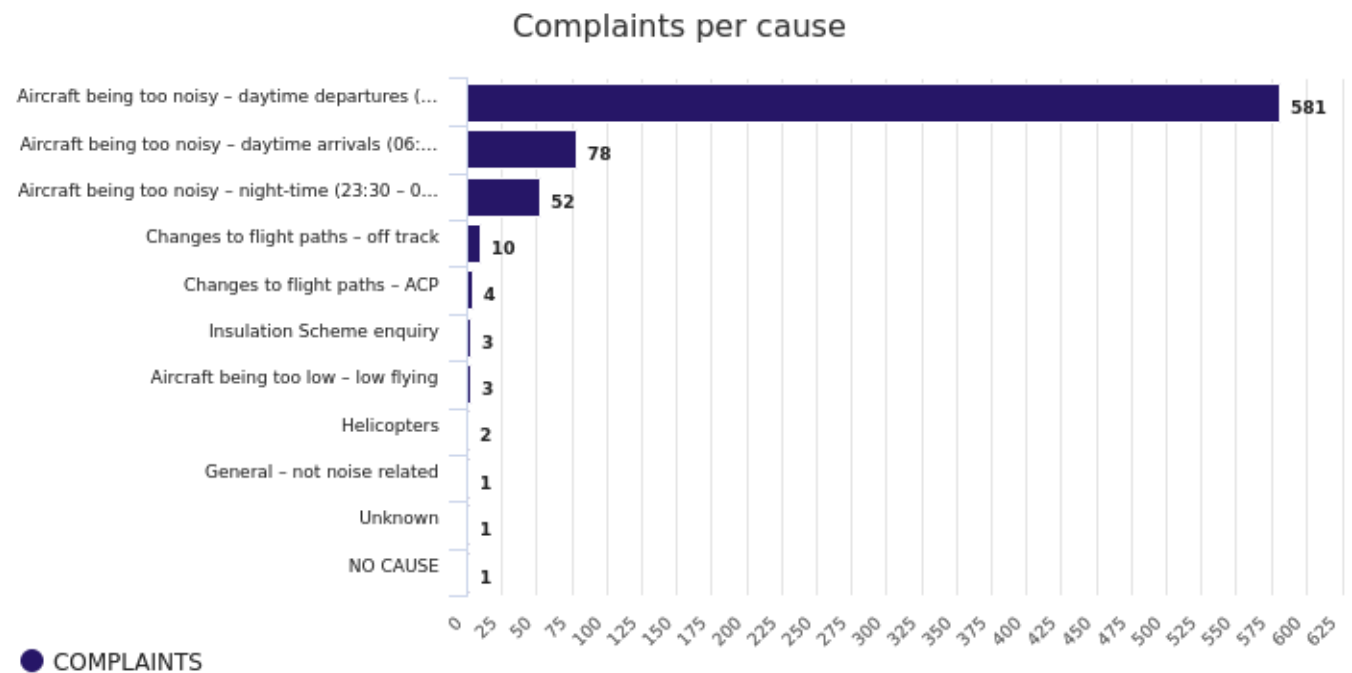

1.2 Runway use

	Jul-19	Aug-19	Sep-19	Q3/2019 total	Q2/2019 total	% change Q3/2019 v Q2/2019	% change Q3/2019 v Q3/2018
Runway 06	3716	3250	2516	9482	19776	-52.1%	51.3%
Runway 24	8831	9321	9370	27522	15555	76.9%	-10.3%

1.3 Number of departures per SID

Number of departures per SID								
SID	GOSAM-06	GOSAM-24	TLA6C	GRI3C	GRI4D	TLA6D	TUT1C	UNKNOWN
Departures	2118	5952	6737	1147	393	2123	0	140

1.4 Complaints by type of enquiry

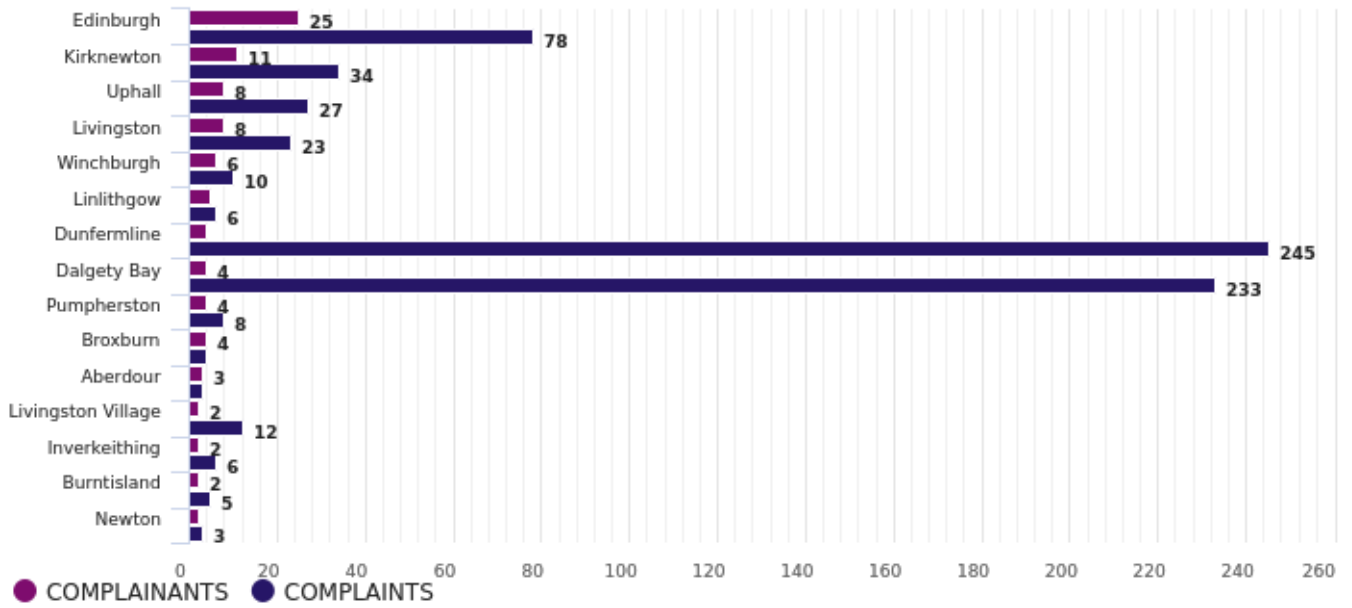

Definition of the above terms used.

Defined terms - As perceived by complainant not EDI defined	
Ground running	Complainant considers noise source to be engine testing operations or noise of aircraft on ground within the airport grounds.
Helicopter	Complainant considers noise source to be EDI related helicopter movements – generally not Edinburgh Airport movements
General/non specific	Complainant wishes to report a non-noise related complaint – still logged as it is received to noise line or noise email address.
Off track	Complainant considers the aircraft to be flying out with the SID or NPR
Low flying	Complainant considers noise source to be due to the altitude of aircraft being too low
Arriving aircraft noise	Daytime (06:00 – 23:30) noise level complaints for arrivals
Departing aircraft noise	Daytime (06:00 – 23:30) noise level complaints for departures
Daytime Noise Levels	Daytime (06:00 – 23:30) noise level complaints – arrivals and departures
Night flight noise	Night time (23:30 to 06:00) noise level complaints
ACP	Enquiries regarding noise levels relating to proposed new flight paths not yet flown
Military flight noise	Noise complaints regarding military aircraft not associated with Edinburgh Airport

1.5 Complaints by area sorted by number of complainants

Complaints per area

1.6 Complaints per SID

6.0 Noise commentary

- Despite the number of complaints rising and falling during this quarter, the number of complainants remained steady, the rise in complaints is shown within our data to be due to wind direction and the continuing complaints in this respect from two frequent complainants. One complainant in Dunfermline accounted for a total of 216 complaints during the quarter, and another complainant in Dalgety Bay responsible for 224 complaints, as you can see from the charts and tables provided complaints from these frequent complainants skew the data provided quite significantly. Reports from frequent complainants made up the majority of our complaints.
- Comparison of Q3 2018 with Q3 of 2019 shows an increase in complaints from 581 to 737, however the number of complainants has reduced from 377 to 106, a reduction of 71.8 %
- The number of complaints answered with in the SLA is down slightly in August and September due to a change in the NPR deviation reporting by our ATC providers, this caused an unavoidable delay in finalising responses to some complainants. All complainants receive an initial email advising them that, their complaint is being investigated and will be responded to in full as soon as possible, this is in line with our SLA and the number of complaints answered within the 98% target are within this target. However, the Casper Noise and Track System calculates the time until the complaint is closed, which includes those complaints where extra analysis or data from another department such as ANS is required which leads to the SLA showing as a lower % than would be expected.
- Mobile noise monitoring equipment has been offered to the complainant in Dunfermline however, we are awaiting a response to this offer of assistance.
- Mobile noise monitoring has continued to take place below the 06 departure paths, during Q3 monitors were located in various locations in Dalgety Bay and Aberdour.
- Engagement with EANAB regarding the format of the mobile noise monitoring reports has now reached a conclusion. The format of the analysis reports is with our NTK suppliers to allow them to code tables and excel analysis formats into the NTK system, this will assist with the extensive analysis work required to produce the Mobile Noise monitoring reports.
- The first of the mobile noise monitoring reports will be published on line by the end of Q4 2019 via Edinburgh Airports Noise Lab web pages.
