1. Aircraft noise

- Our Service Level Agreement (SLA) is to respond to noise complaints within eight days
- All percentages are reported to one decimal place
- Any negative figures or decrease in percentages are reported in red
- Relevant data tracker topic number

1.1 Noise complaints received

* The number of complainants per Quarter will not equal the sum of the complainants per month. If a complainant makes a complaint each month they will be counted as one complainant across the Quarter rather than as 3.

Off track	Complainant considers the aircraft to be flying out with the SID or NPR
Low flying	Complainant considers noise source to be due to the altitude of aircraft being too low
Arriving aircraft noise	Daytime (06:00 – 23:30) noise level complaints for arrivals
Departing aircraft noise	Daytime (06:00 – 23:30) noise level complaints for departures
Daytime Noise Levels	Daytime (06:00 – 23:30) noise level complaints – arrivals and departures

6.0 Noise commentary

- *After commencement of Q2 report production, 4 complaints were received on 13th July re daytime arrivals from one individual in the EH16 postcode area, changing the total complaints/complainants received to 59 and 17 respectively, these have been added to the system and responded to, however they do not appear in Table 1.1 or subsequent tables, but are represented in table 1.5.

Commencement of the EACC Q2 report has not yet commenced, and the new complaints will be reflected within this report.

- 240+ complaints were received via email from one individual in Blackness, as with historic complaints received in this manner these have been noted but will not be added to the system due to the resources required to add each complaint individually to the NTK system. One complainant and one complaint have been added to Table 1.5 for Blackness
